### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: the overall claimed combination of a method of dissipating power to store heat in a heating element of a temperature controlling device, and then releasing the stored heat to warm air evaporating a composition containing a pharmaceutically active formulation including the steps of supplying power from a portable power source to a heating element, the element having a long thermal time constant in still air of greater than about 10 seconds; and flowing air over the heating element to release heat to the flowing air, whereby the thermal time constant of the device for releasing heat to the flowing air is less than about 10 seconds, is neither anticipated nor rendered obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
